Finding Queer (West) London

Dr Claire O'Callaghan **- Finding Queer (West) London**

Finding Queer (West) London is a participatory, curatorial public engagement project to 'find' the hidden histories of queer West London.

This project invites the public to co-create a visual and digital map of queer West London past. Focusing on personal moments and encounters in West London spaces or places from any moment, we seek the public's help to 'find' and document the unofficial histories of queer West London. One map will be sited at the university and another in Hillingdon Uxbridge Library.
