

**West London Teacher Education Collaboration**

**Mastery Level: Module Six**

**Title: The Teacher as a Researcher**

**Module 6: The Teacher as a Researcher**

**The teacher as a researcher**

Using current research in an Education context develop an 'action research/ study into an aspect of Teacher education that you as a teacher could use to enhance the experience for your trainee. Create a power point to show your results and actions from this. (This could be delivered as a presentation to other mentors in the school with the PCM?)

Choose a situation on which you could reflect on your own practice and write a report on this - maximum 1000 words.
