

A photograph of a traditional stone well in a dry, hazy landscape. The well is constructed from stacked stones and has a large, dark, woven basket or bucket hanging from its edge. The background shows rolling hills or mountains under a bright, hazy sky. The overall color palette is warm and earthy, with shades of brown, orange, and yellow.

10p of every life water bottle goes toward
supplying rural communities with clean water

What's the story?

As part of its commitment to using sustainable and Fairtrade food, Chartwells continue to sell at least one charitable water across the University campus. For every bottle of Life Water sold, the ethical bottled water company, via their partner charity Drop4Drop, funds the delivery of 1000 litres of clean drinking water to communities in need around the world.

Where have we helped?

Water wells installed in...

Tamil Nadu (India)

Amirthamangalam (India)

What has been the impact?

The well built in Amirthamangalam SC Village will benefit a community of 1,896 people who previously had to walk over an hour a day to collect water from neighbouring villages.

Having a clean provision of water now means that the community no longer have to face the threat of water-borne illnesses and can focus upon livelihoods, education and family life.

'I am happy and humbled to thank and greet NEWS NGO, DROP4DROP, U.K. and kindly donated by CHARTWELLS & BRUNEL UNNIVERSITY LONDON through purchases of Life Water for Sponsoring a deep Borewell fitted with an Electrical Motor and a 2000 Litres overhead tank to our Amirthamangalam SC Village.

This is our great joy to express our sincere gratitude for the new water project provided to our village. We were in great struggle to get the required water for our day to day use and were cursing our gods and goddesses for leaving us in a poor situation. Now it is a great opportunity for us to avail such a great project at our habitation. We are very happy and it shall enable us to make use of the water as and when we require.

Our community people convey their heartfelt gratitude for the facility provided by CHARTWELLS & BRUNEL UNNIVERSITY LONDON THROUGH PURCHASES OF LIFE WATER, DROP4DROP, U.K. through NEWS NGO. We shall be ever grateful and we shall maintain in a proper manner. THANK YOU! THANK YOU VERY MUCH – Chartwells & BRUNEL UNNIVERSITY LONDON THROUGH PURCHASES OF LIFE WATER.'
