<td><strong>A: Recruitment and Selection</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Principle 1:</strong> Recognition and the importance of recruiting, selecting and retaining researchers with the highest potential to achieve excellence in research.</td>
<td>The University is committed to the regular review and maintenance of best practice in this area.</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>B: Recognition and Value</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Principle 2:</strong> Researchers are recognised and valued by their employing organisation as an essential part of their organisation’s human resources and a key component of their overall strategy to develop and deliver world-class research.</td>
<td>✓ (2011) Research managers to be encouraged to attend training on ‘Managing your research staff’. We will strengthen areas of training that support supervisor and PI development within the Staff Development programme; we already provide supervisors with training on the RDF and will ensure broader coverage and encourage RDF use to inform PDPs and staff development reviews. This training will be delivered within new Colleges and Research Institutes to ensure maximum coverage. Mechanisms for supporting and recognising good researcher management will be explored through review of the appraisal of principal investigators / Heads / Staff Development / HR / Graduate School / Staff Development / Graduate School / HR</td>

2.3 Research managers should be required to participate in active performance management, including career development guidance, and supervision of those who work in their teams. Employers should ensure that research managers are aware of, and understand their responsibilities for the management of researchers and should provide training opportunities, including equality and diversity training, to support research managers in doing this. Institutions will wish to consider how research managers’ performance in these areas is developed, assessed and rewarded and how effectively this supports good research management.
**C: Support and Career Development**

**Principle 3:** Researchers are equipped and supported to be adaptable and flexible in an increasingly diverse, mobile, global research environment.

**Principle 4:** The importance of researchers’ personal and career development, and lifelong learning, is clearly recognised and promoted at all stages of their career.

| 3.4 | All employers will wish to review how their staff can access professional independent advice on career management in general, particularly the prospect of employment beyond their immediate discipline base, or offering training and placements to broaden awareness of other fields and sectors. | ✓ (2011) Greater involvement from the Placement and Careers Centre (PCC) will be requested, as outlined in the University’s Research Strategy. Specific sessions for research staff on careers guidance and training will be developed, and research staff will be actively encouraged to participate in the forums that already exist linking Brunel to... | Placement and Careers Centre / Graduate School | Jul 2011 – 13 |

| 2.6 | Researchers need to be offered opportunities to develop their own careers as well as having access to additional pay progression. Promotion opportunities should be transparent, effectively communicated and open to all staff. It is helpful if clear career frameworks for early stage researchers are outlined in organisational HR strategies. | ✓ (2011) Promotion procedures for research staff are transparent and clearly outlined within the staff handbook and on the University’s intranet.  
✓ (2011) The University intends to develop a code of practice for the management of research staff – this has already been made explicit in the University’s Research Strategy.  
✓ (2011) The University will raise awareness amongst research staff of the existence of the ‘special panel for promotion of research staff’. Relevant training will be provided.  
We will appoint a Career Development Champion within the University for research staff. | Staff Development / HR  
HR / Research and Knowledge Transfer Committee (Senate)  
Staff Development  
Equal Opportunities and Human Resources Committee | Completed  
Completed  
Completed and continual regular activity: Sep 2013 onwards | By Oct 2014 |
| 3.5 | Researchers benefit from clear systems that help them to plan their career development. Employers and funding bodies should assist researchers to make informed choices about their career progression by ensuring that their own policies and processes for promotion and reward are transparent and clearly stated and that all researchers are aware of local and national career development strategies. | As 3.4 |

| 3.6 | Employers should provide a planned induction programme for researchers, on appointment to a research post, to ensure early effectiveness through the understanding of the organisation and its policies and procedures. They should also ensure that research managers provide effective research environments for the training and development of researchers. | ✓ (2011) A central compulsory induction process is currently run through Staff Development. We will introduce a supplementary induction process, specifically for research staff only, toarine: 

Industry and a range of external employers.  
✓ Sponsorship of research staff (7%) to attend Imperial University’s intensive Career Development Residential workshops.  
✓ Provide termly focus groups for research staff and activities tailored specifically around career development. Enable researchers to access specialist intensive career development workshops. 

The Ready for Work programme (pilot) will be delivered to which researchers are recruited as group / project facilitators. 

RSDO Impact Academy to help researchers improve their understanding of how best to work with companies in the automotive sector. 

The University will reorganise its research portfolio into three major research institutes thereby promoting better opportunities for researcher integration, collaboration and development.

Run termly, continual 
Continued from previous plan, to be...
and encourage them to maintain or start their continuous professional development.

| 3.7 | Employers and funders will wish to consider articulating the skills that should be developed at each stage of their staff development frameworks and should encourage researchers to acquire and practice those skills. For example, researchers may be given the opportunity to manage part of the budget for a project, or to act as a mentor or advisor to other researchers and students. | ✓ (2011) Workshops to promote Researcher Development Framework (RDF) alongside opportunities for personal / professional development to be added as regular skills workshops. Mentoring of research students by research staff to be developed.  
✓ (2011) Training provided through the Graduate School’s Researcher Development Programme contains a range of activities and events aligned to the Vitae Researcher Development Framework (RDF).  
An online portal will be developed to provide a single point of access to the full range of research-related services. | / Graduate School / Graduate School / Staff Development / RSDO | Two workshops delivered per term from Sep 2012 (continual) |

| 3.8 | Employers also should provide a specific research career development strategy for researchers at all stages of their career, regardless of their contractual situation, which should include the availability of mentors involved in providing support and guidance for the personal and professional development of researchers. All researchers should be familiar with such provisions and arrangements. | ✓ (2011) Examples of current good practice within the University to be further evaluated.  
We will establish a new mentoring scheme for under-represented groups.  
We will enhance the coaching and mentoring culture within the University and opportunities for | / Graduate School / Staff Development / HR / PIs and managers HR Staff Development, Graduate School, RSDO | Sep 2011 –13 Est. Nov 2012 and Nov 2013 On request, continual from Jan |
<table>
<thead>
<tr>
<th>3.9</th>
<th>Research managers should actively encourage researchers to undertake CPD activity, so far as is possible within the project. It should be stressed that developmental activity can often have a direct impact on the success of the project, by distributing work, taking advantage of individual strengths and talents, and increasing the skill and effectiveness of researchers in key areas such as writing for publication or communicating with a wider audience.</th>
<th>Researchers to access these; one-to-one coaching along with support for fellowship and grant applications (through the Graduate School and RSDO). The University will provide ILM Level 5 training in Coaching and Mentoring for Leadership, growing a central pool of coaches and mentors.</th>
<th>Jan – Oct 2013 (first tranche); Jan – Oct 2014 (second tranche)</th>
</tr>
</thead>
</table>
| 4.10 | Researchers should be empowered by having realistic understanding of, and information about, their own career development and career direction options as well as taking personal responsibility for their choices at the appropriate times. Employers should introduce appraisal systems for all researchers for assessing their professional performance on a regular basis and in a transparent manner. It is important that researchers have access to honest and transparent advice on their prospects for success in their preferred career. | As 5.6
- Grant Academy Programme for ESRC Future Research Leaders – providing early and mid-career researchers with targeted writing skills training and support to develop research grants.
- A Research Impact Academy will be run, linked to EPSRC Impact Acceleration Account (IAA) award.
| 4.11 | Employers will wish to ensure that development activities open to researchers include preparation for academic practice. Employers should take measures to ensure broad recognition of CPD schemes from other employing organisations as far as possible, so that researchers are not duly disadvantaged when moving from one employer to another. | We will actively review training provision in academic practice as part of the University’s Transformational Change Programme. We will establish a revised programme of support. | Brunel Education Enhancement Centre (BEEC) / Academic Practice BEEC | Oct 2013 – Apr 2014 From Oct 2014 |
Employers will ensure that where researchers are provided with teaching and demonstrating opportunities as part of their career development, suitable training and support is provided.

- The inclusion of dedicated sessions on PhD supervision and the RDF within the University’s annual Teaching and Learning Symposia.
- Online training in ‘University and College Teaching’ will be available to all staff, including all researchers, and will be integrated into blended learning opportunities in this area.

Employers and researchers can often benefit if researchers have an input into policy and practice through appropriate representation at staff meetings and on organisation and management committees.

- (2011) Greater involvement / representation of research staff at University Committee level is currently being explored through the Staff Development Strategy Group.
  - We will launch a new Brunel Research Staff Association.
  - New committees arising as part of the University’s Transformational Change Programme will ensure representation of research staff on appropriate committees.
  - We will appoint a member of research staff to University Senate.

Mentoring arrangements should be supported by employers as a key mechanism for career development and enhancement.

- (2011) Mentoring workshops are currently run through Staff Development and related schemes have been piloted in two academic Schools.
  - We will evaluate pilot schemes and continue to provide training for mentors and mentees. We will...
### D: Researchers’ Responsibilities

**Principle 5**: Individual researchers share the responsibility for and need to pro-actively engage in their own personal and career development and lifelong learning.

| 5.2 | Researchers should develop their ability to transfer and exploit knowledge where appropriate and facilitate its use in policy making and the commercialisation of research for the benefit of their employing organisation, as well as the wider society and economy as a whole. | ✓ (2011) Build on the training in knowledge transfer currently provided for research staff through the Graduate School. This involves internal and external knowledge-transfer experts.  
We will encourage the University’s initiatives / partnerships to engage more with research staff through planned events and meetings; research staff will be encouraged to exploit existing expertise / resources within these initiatives.  
✓ With a £600k EPSRC Impact Acceleration Account (IAA), RSDO established an Impact Academy to help early and mid-career researchers improve their understanding of how best to work with companies in the automotive sector.  
✓ Collaborative training opportunities, with the aim of helping researchers to broaden their networks, provided research staff with access to seven additional events.  
We will run regional collaborative training on networking and collaboration for researchers, at least four events per annum (Brunel, QMU, UEL, UCL).  
We will develop an internal electronic database of research staff to highlight expertise and support / promote collaboration. | Graduate School / Placement and Careers Centre / Research Support and Development Office (as above)  
Graduate School / regional collaborators

Jan – Dec 2014 | Continual (activity monitored through Research and Knowledge Transfer Committee) |
| 5.3 | Researchers should recognise their responsibility to conduct and disseminate research results in an honest and ethical manner and to contribute to the wider body of knowledge. | ✓ (2011) Training in research ethics is currently provided for research staff as part of the staff development programme within the University.  
✓ University is signed up the Concordat for Research Integrity.  
Deliver integrated training on research integrity and data management; on-line training in Research Integrity will be available to all researchers. | UREC / Staff Development / Graduate School | Regular provision in Staff Development and Graduate School programmes Dec 2013 – Jul 2015 |
| 5.4 | Researchers should also be aware that the skills and achievements required to move on from a research position may not be the same as the skills and achievements which they displayed to reach that position. | As 3.4, 3.8 and 5.6. |  |
| 5.5 | Researchers should recognise that the primary responsibility for managing and pursuing their career is theirs. Accordingly, they should identify training needs and actively seek out opportunities for learning and development in order to further that career and take responsibility for their choices. Research managers and employers also have a responsibility to provide honest advice and appropriate structures, and to equip researchers with the tools to manage their own careers. Research managers should encourage research staff under their supervision to attend appropriate training and career development courses and events. | (2011) Principal Investigators to be encouraged by School Heads to attend training on managing research staff (as 2.3)  
We will launch and support a Brunel Research Staff Association. | Staff Development / Graduate School | Continual workshop provision within Staff Dev prog subject to termly evaluation and review |
| 5.6 | Researchers should ensure that their career development requirements and activities are regularly discussed, monitored and evaluated throughout the year in discussion with their research manager and mentor, and that they commit themselves fully to all such activities. Researchers are encouraged to record their PDP and CPD activities, a log of which may be presented to current and future employers as appropriate. | We will promote PDP and CPD to researchers through the Researcher Development Programme and raise awareness of electronic resources to support record keeping (e.g. Vitae RDF planner). Active review of PDP will be encouraged as part of performance review and development.  
We will review the pilot of the Vitae RDF planner. | Graduate School / Learning & Technology Team | Form part of regular induction sessions for researchers (monthly, first Wednesday of each month) Pilot ends 21 Nov 13 |

### E: Diversity and Equality

**Principle 6:** Diversity and equality must be promoted in all aspects of the recruitment and career management of researchers.

**Areas delivered:**

- The University’s procedures and policies are in full accordance with related legislation, applied to all staff, regardless of contract terms.
- Diversity and equality training is compulsory for all members of staff as part of their induction process. Further training on cultural awareness is provided by staff development through a dedicated diversity and equality trainer.
- The University has a clear policy and code of practice on harassment and bullying and a number of resources to support staff, including Anti-Harassment Advisors.
- Staff representativeness is continually monitored and published annually.
- Specialist training and a range of workshops for staff with English as a second language have been developed through staff development; this includes investment in the development of complementary specialist on-line training.

**Additional activity:**

- The University received a Bronze Athena SWAN award in April 2012.
- The University appointed a senior academic to the position of Equal Opportunities Champion affirming the importance of its commitment to this area (Oct 2012 continual).
- Two University departments plan to submit applications for Silver Athena SWAN awards (Nov 2013).
- New mentoring schemes have been developed for (i) Black and Ethnic Minority staff and (ii) Female researchers / academics (2012/13, 2013/14).
- The University has established a series of Equality Objectives (2012 – 2016) – detailed below.
- The University will provide 40 STEM PGT scholarships for women in 2014 through a dedicated programme as a pipeline for building research capacity in this area.

### F: Implementation and Review

**Principle 7:** The sector and all stakeholders will undertake regular and collective review of their progress in strengthening the attractiveness and sustainability of research careers in the UK.

- Regular participation in sector-wide surveys (PRES, CROS, PIRLS), relevant regional and national stakeholder consultations and meetings.

Actions and progress relating to the plan will be monitored by the Action Group, chaired by PVC (Research), comprising representation from the Graduate School (lead), HR / Staff Development, RSDO, PCC and local RSA. Progress will be reported to University Council through the Equal Opportunities and Human Resources Committee.
