### Introduction to the Mastery Level Mentor Development

#### Guidance:

- In order to progress onto the **Mastery Level** mentor development modules, a mentor must firstly have **completed** the **Entry level** mentor development modules **One** and **Two**. They will have mentored a student teacher for the foundation or a single placement in the year. They will have obtained recognition for this single placement mentoring through the award of **Entry Level Certification**. **Entry Level** modules are: Module 1 – Understanding the Provider processes and paperwork; Module 2 – Getting the best out of the weekly meeting.
- Before starting the **Mastery** modules a mentor must have revisited the **Mentor Audit** and **updated** their confidence levels showing progress in their knowledge and understanding from the first **Entry Level audit** they undertook.
- In order to gain recognition for the **Mastery Level** certification a mentor must have completed a full year cycle with a student teacher seeing them through the various stages of school experiences that make up the year. This could be completed over a two year period.
- Mentors aiming to be recognised as gaining **Mastery Level** certification will need to have dated evidence from work undertaken with the student teacher over the year(s).
- The four modules below need to be completed so as to supply evidence to cross reference against the National Mentors Standards framework.
- A very experienced mentor may apply for the Mastery Level certification by supplying evidence they have gathered from past mentoring experience

**Modules 1 and 2 for the Entry Level should have been completed prior to engaging with modules 3 to 6.**

Complete the reflective task around 'Questioning personal theories and beliefs'. (See task sheet: Module 5 Task – Questioning personal theories and beliefs)</li> <li>Record a Post Lesson Discussion (mentor/mentee in collaboration. Find out about 'professional learning conversations', from this text, or an alternative source.</li> <li>How have you modelled reflective practice in your post lesson discussion? What impact has it had on developing the reflective practice of the student teacher?</li> <li>Think back over recent months and identify opportunities in which you engaged in professional learning conversations with others, formally and informally. Describe the nature, purpose and outcome of those conversations which supported your professional development most effectively. How can you use these conversations to help student teachers see their practice differently?</li> <li>Using the CUREE National Framework for Mentoring and Coaching: Skills for mentoring and coaching section</li> <li>Identify the skills you use in your teaching and in your role as a mentor in the mentor/mentee relationship</li> <li>Which of these do you need to develop to help you meet the Mentor Standards and which of these do you already use?</li> <li>Write a short report outlining the above</li> </ul> <p><i>Most of these tasks have been linked to The Teacher's Reflective Practice Handbook, Paula Zwozdiak-Myers, 2012. Ideally, you will have access to this text, but if not, the tasks have been adapted so that they are accessible without it.</i></p>

<b>Module Six : Linked with National Mentor Standards</b>	<b>Suggested activities :</b>
<p><b>Standard 4: Self-development and working in partnership</b></p> <ul style="list-style-type: none"> <li>Continue to develop their own mentoring practice and subject and pedagogical expertise by accessing appropriate professional development and engaging with robust research (to include evidence based research)</li> </ul>	<p><b><u>The teacher as a researcher</u></b></p> <p>Using current research in an Education context develop an 'action research/ study into an aspect of Teacher education that you as a teacher could use to enhance the experience for your student teacher. Create a power point to show your results and actions from this. (This could be delivered as a presentation to other mentors in the school with the PCM?)</p> <p>Choose a situation on which you could reflect on your own practice and write a report on this - maximum 1000 words</p>
