# Bringing Made Smarter to London

The Made Smarter London programme offers tailored support to help SMEs harness industrial digital technologies – supporting entrepreneurs at the heart of London's communities.

**London's manufacturing sector is diverse, innovative and vital to the city's economy.** This programme is designed to meet businesses where they are and guide them toward impactful transformation.

# Our mission

The **Made Smarter** adoption programme aims to **empower and support London's manufacturing businesses**. Delivered by London & Partners, the programme offers bespoke digital technology advice, strategic support and a blend of in-person and remote workshops to help businesses identify and implement effective digital solutions.

# What we offer

## 1-1 Advice

Tailored advice from technology specialists, based on your business needs.

## Roadmapping

A digital acceleration session and bespoke digital roadmap for your business.

## Preparation

Advice on how to ensure your organisation is ready for digital transformation.

## Grant Funding

Match-funded grants of up to £20,000 for the purchase of hardware and software.

## Leadership Training

A Leadership and Management Course to guide your digital strategy.

## Site Visits

Visit exemplar manufacturing facilities to see the benefits of IDT in practice.

## Workforce Development

A Workforce Development Course to build confidence and upskill your staff.

## Digital Interns

An intern to help with your digital adoption strategy or implementation.
