

Why is student engagement important?

"While higher education providers might deliver high quality and engaging teaching, a fantastic learning environment with plenty of up-to-date resources and a thriving and involved student community, ultimately it is the effort and engagement of students that leads to learning success."

The Student Engagement Partnership, NUS 2015

The skills and experience generated through student engagement opportunities enhance the prospects of employability post study.

Student Engagement @Brunel

"Our staff..... will work in partnership with our students to enhance their academic experience and opportunities to engage in a broad range of extra curricular activities."

Brunel University London Vision 2030

"To create a culture where students and staff jointly work in partnership to effect change, and enhance the University and its community of learners."

Student Partnership Strategy 2016-21
