## Undergraduate Programme

1. **Awarding institution**
   - Brunel University London

2. **Teaching institution(s)**
   - Brunel University London

3. **Home college/department/division**
   - Department of Clinical Sciences, Division of Occupational Therapy and Community Nursing

4. **Contributing college/department/division/associated institution**
   - None

5. **Programme accredited by**
   - Nursing & Midwifery Council (NMC, Statutory Body)

6. **Final award(s) and FHEQ Level of Award**
   - BSc Specialist Community Public Health Nursing: Health Visiting
   - BSc Specialist Community Public Health Nursing: Occupational Health Nursing
   - BSc Specialist Community Public Health Nursing: School Nursing
   - All of the above awards are at FHEQ Level 6

7. **Programme title**
   - Specialist Community Public Health Nursing: Health Visiting
   - Specialist Community Public Health Nursing: Occupational Health Nursing
   - Specialist Community Public Health Nursing: School Nursing

8. **Programme type (Single honours/joint/)**
   - Singlehonours

9. **Normal length of programme (in months) for each mode of study**
   - 52 weeks full time
   - 104 weeks part time

10. **Maximum period of registration for each mode of study**
    - Normal plus 2 years

11. **Variation(s) to September start**
    - None

12. **Modes of study**
    - Full time and Part time

13. **Modes of delivery**
    - Standard

14. **Intermediate awards and titles with FHEQ Level of Award**
    - None

15. **UCAS Code**
    - n/a

16. **HECoS Code**
    - 100295 (Health Visiting)
    - 100281 (Occupational Health Nursing)
    - 100293 (School Nursing)

17. **Route Code**
    - B712USCPHNH (Health Visiting)

|---|---|
| 19. Admission Requirements | Details of entry requirements are provided on the University’s and College website.  
Levels of English for non-native speakers are outlined on Brunel International’s language requirements pages.  
- Qualified nurse with active registration on the NMC Nursing Register part One or Two. Two satisfactory references of which one should be an academic reference.  
- A Diploma of Higher Education or the equivalent of 120 FHEQ Level 5 credits. All applicants are required to be interviewed to ascertain their professional readiness to undertake the programme.  
Community Health Admissions Policy  
Admissions to the Community Health Programmes are in accordance with the policy of the School of Health Sciences & Social Care and Brunel University. The policy takes into account the requirements of the Nursing and Midwifery Council and Brunel University’s Equal Opportunities Policy. |
| 20. Other relevant information (e.g. study abroad, additional information on placements) | 50% of the Programme is based in practice, which is undertaken in audited placements. Each student has one main practice placement, which is carried out in their professional discipline. It is facilitated by an appropriately educated and prepared Practice Teacher. The theory and practice modules run concurrently and in total work out to an average of two days in the University and two days in practice per week. There are 45 programmed weeks of University and practice based - learning, which incorporates 15 days of alternative practice. The programme incorporates seven weeks of annual leave and concludes with a ten week consolidated practice placement.  
Applicant Screening  
Students placed in NHS setting for practice will have screening by the Disclosure and Barring Service undertaken by the placement organisation. However as Occupational Health Nurse students may be placed in NHS placements they will carry out the screening if |
**Statutory Body Accreditation**
The programme meets the regulatory requirements for Approval and Monitoring of Specialist Community Public Health Nursing Programmes as laid down by the Nursing and Midwifery Council. The award grants a licence to practise.

**Career Opportunities**
Nurses who successfully complete the programme are eligible to apply for posts as Specialist Community Public Health Nurses within their pathway specialism. Career progression as team leaders and managers frequently result following this award.

21. Programme regulations not specified in Senate Regulation 2. Any departure from regulations specified in Senate Regulation 2 must be stated here and approved by Senate.

**Nurse Prescribing Module**
The V100 Nurse Prescribing modules provide professional development certification. It is not required to achieve a pass in these modules to receive any of the awards available under the Specialist Community Public Health Nursing programme. Students who undertake and pass the assessment will be noted at the Board of Examiners and the student's results will be relayed to the NMC to enable the student to practise as a V100 nurse prescriber.

**Registration**
Students will be registered for the BSc (Hons). This is the only route permissible in order to achieve the award and license to practise.

**Assessment**
The Consolidated Practice Module will be 0 credit rated (SR2.7 and SR2.8)

Students who undertake and pass the Nurse Prescribing assessment will be noted at the Board of Examiners and the student's results will be relayed to the NMC to enable the student to practise as a V100 nurse prescriber.

Nurse Prescribing Assessment HHNP is a professional development assessment. Failure of this assessment does not affect the degree programme outcome.

**Reassessment**
Students may be permitted reassessment in up to 60 credits. No assessment can be attempted on more than 2 occasions. (c.f SR2.71).

**Withdrawal from Practice Placement**
All students are required to undertake specified periods of placement. Every attempt is made to match students' placement needs. Students may not unreasonably reject the offer of a placement setting nor are they permitted to unilaterally discontinue a placement setting once commenced. The University and the placement provider may terminate a placement setting only with good cause. Students who wish to discontinue a placement setting must gain the agreement of the University before they may discontinue the placement setting; relevant procedures are defined in the placement handbook.

Where, after due process as defined in the relevant placement handbook, a student's progress in a placement setting is judged as irredeemable, the placement setting may be terminated early by the University and placement provider. An ‘irredeemable’ judgement will be made only where the student's progress in the placement setting is such that it will not be possible for the student to meet the assessment requirements of the placement module/block within the remaining standard period of the current placement setting.

**Attendance**
Each module is considered separately for attendance purposes and 100% attendance is expected in each module. Attendance on campus
will be recorded by the use of self-signing registers in each session. These will be monitored regularly by the module leader and when poor attendance is noted which might lead to a student falling below 80%, action will be taken. Attendance will be discussed with the student and noted on a tutorial record sheet. If attendance does not improve and there are no known mitigating circumstances then the student will be issued with a brief written reminder of the attendance requirement, and the practice sponsor/OH manager will be notified.

Sponsoring/employing organisations are informed of attendance records on a termly basis

The attendance level requirements in the practice placement are reviewed as part of the formative assessment.

**Professional Suitability**

Certain behaviours may indicate that a student is professionally unsuitable. Where the professional suitability of a student is questioned, the suitability procedures of Senate Regulation 14 will be followed.

| 22. Further information about the programme is available from the College website. | Further programme information is available on the College website [http://www.brunel.ac.uk/courses/undergraduate/specialist-community-public-health-nursing-bsc](http://www.brunel.ac.uk/courses/undergraduate/specialist-community-public-health-nursing-bsc) |
23. EDUCATIONAL AIMS OF THE PROGRAMME

This programme aims to provide registered nurses and midwives holding a diploma level qualification (or equivalent), with the knowledge and skills to enable them to become specialist community public health nurses who are fit for practise, purpose, award and professional standing.

The proposed programme aims to develop Specialist Community Public Health Nurses who are able to improve standards of public health practice and facilitate the development of public health practice. Practitioners must be able to work both collaboratively within a multi-disciplinary team and autonomously, ensuring high quality health care for individuals, families, groups and communities based on evidence based practice.

The aims and learning outcomes for the programme have been taken from SCPHN Standards document (NMC 2004):

- To provide the foundation for the standards of proficiency for entry to the NMC register as a SCPHN in Health Visiting, Occupational Health Nursing, School Nursing.
- To ensure that students are prepared to practise safely and effectively to such an extent that the protection of the public is assured at all times following The Code: Standards of conduct, performance and ethics (NMC, 2008).
- To prepare practitioners to be practice- centred and proficient and to work in a rapidly changing environment by adapting to new systems of service delivery and public health.
- To prepare students for extending the scope of future practice roles and responsibilities by providing foundation knowledge and skills that will enable further professional development through lifelong learning.
- To develop a critical, challenging and innovative approach to contemporary public health issues that can influence effective service provision.

24. PROGRAMME AND INTERMEDIATE LEARNING OUTCOMES

The programme provides opportunities for students to develop and demonstrate knowledge and understanding (K) cognitive (thinking) skills (C) and other skills and attributes (S) in the following areas:

<table>

**Learning/teaching strategies and methods** to enable learning outcomes to be achieved, including formative assessments

- Work-based practice, lectures, seminars, discussion, debates, small group work, study, problem-focused learning and tutorials
- Public health intervention strategy

**Summative assessment strategies and methods** to enable learning outcomes to be demonstrated

- A variety of assessment methods are used throughout the programme to assess knowledge and understanding, and provide feedback both formative and summative. For example through examination, project work, assignments, and evidence from practice experience.
- The assessment of cognitive skills is achieved through evidence based presentations, reflections, assignments, portfolio and the dissertation
- Practical and professional skills are assessed in practice, project work, public health intervention, report writing/care planning, nurse prescribing.
- Transferable skills are assessed in presentations, practice, assessed group work.

### 25. Programme Structure, progression and award requirements

Programme structures and features: levels, assessment blocks, credit and progression and award requirements

- **Compulsory block**: one which all students registered for the award are required to take as part of their programme of study. These will be listed in the left hand column;
- **Optional block**: one which students choose from an ‘option range’. These will be listed in the right
A non-core assessment does not have to be passed at grade D- or better, but must be better than a grade F, in order to progress and to be eligible for the final award.

FHEQ Level 6 Progression and Award Requirements

As per Senate Regulation 2
In order to be recommended for a classified Honours degree, a student must pass 120 credits at FHEQ level 6 and pass the Consolidated Practice Module (CM3602).

Intermediate awards are not available since the programme is at FHEQ Level 6 only. (as per SR2.1 and SR2.61 and c.f. 2.62d).

Nurse Prescribing Assessment (CM3802) is a professional development assessment. Failure of this assessment does not affect the degree programme outcome.

Classification
Students must pass the Consolidated Practice Module (CM3602), which is graded on a pass/fail basis. However, this does not contribute to the degree classification. (SR2 – Appendix A)

Mechanisms for classification shall be as per Senate Regulation 2 Appendix A. The weightings in section C of Appendix A do not apply. The profile for classification shall be entirely based on FHEQ Level 6.

An aegrotat pass is not possible for a BSc (Hons) Specialist Community Public Health Nursing since such an award would confer a license to practice and this is unacceptable to the statutory body (NMC) where the student has not been assessed in all programme elements. (c.f. SR2.62e)
