Navigating a New Era for Autism

As autism policy, education, and support services continue to evolve, staying informed has never been more important.

What Every Parent, Educator & Clinician Needs to Know

- ? Will autistic individuals continue to receive the support they need to thrive?
- ? What does the Schools White Paper mean for autism, education, services, and future opportunities?
- ? Where does evidence-based Applied Behaviour Analysis fit in modern, ethical autism support?

What You Will Gain

- ✓ Clear insights into the implications of the White Paper on autism services
- ✓ Practical, evidence-based strategies informed by Applied Behaviour Analysis for home, school, and clinical settings
- ✓ Opportunities to strengthen collaboration between autistic individuals and their families and professionals
