### **3. Procurement Operations**

#### **3.1. Planning**

3.1.1. Directorates and Colleges will be asked to provide a forecast every year, for the following 3 financial years, for all procurements above £30,000 to enable Procurement Services to plan and allocate resources.

#### **3.2. Corporate Contracts**

3.2.1. Procurement Services have awarded a range of Corporate Contracts for goods, services and in some cases works that are commonly required. The use of these Corporate Contracts is mandatory and compliance will be monitored and reported.

3.2.2. Corporate Contracts may be accessible through a range of procure to pay (P2P) solutions. These solutions may include but will not be limited to Catalogues via CHIME, Purchase Requisitions via CHIME and Supplier Portals. The P2P route to be followed will be communicated by Procurement Services.

3.2.3. Officers must seek advice from Procurement Services if unsure if a Corporate Contract is available and, or which P2P route should be followed.

#### **3.3. Category Management Toolkit**

3.3.1. The Category Management Toolkit is to be used for all strategic procurements and the principles are to be adopted for operational and low value procurements. The principles will be built into the workflow within [www.BruneleSourcing.com](http://www.BruneleSourcing.com).

#### **3.4. Estimating the Total Contract Value**

3.4.1. Officers should calculate a genuine pre-estimate of the total contract value excluding Value Added Tax. This should be for the whole of the predicted contract period which must include any provisions for extensions. If the terms of a contract are yet to be established or uncertain, then a 4 year contract should be assumed for the purposes of estimating the contract value.

3.4.2. Officers must not deliberately sub-divide or disaggregate procurements for the purpose of avoiding thresholds.

#### **3.5. Spend Definitions**

3.5.1. **Works** are defined as the construction, demolition, transformation or repair of a building or location.

3.5.2. **Goods and Services** are defined as the provision of tangible items (goods) or intangible routine actions (services) that are required to fulfil a need.

Such advice will be provided outside the 'business-as-usual' environment when in-house skills are not available and will be time-limited. Consultancy Services may include the identification of options with recommendations, or assistance with (but not necessarily the delivery of) the implementation of solutions. Officers

must seek advice from the Professional Services Sourcing Manager within Procurement Services, prior to proceeding with the procurement of a consultancy service, regardless of the estimated total contract value. For the avoidance of doubt, Architectural services are not classed as the provision of Consultancy but will fall under the definition detailed under item 3.5.2 Goods and Services.

### **3.6. Standard Procurement Documents**

- 3.6.1. Procurement Services are responsible for developing and maintaining standard procurement documents to be used when conducting tender or requests for quotations. The standard documents/templates contained within [www.BruneleSourcing.com](http://www.BruneleSourcing.com) shall be used for all new strategic procurements.

### **3.7. Terms & Conditions of Contract**

- 3.7.1. The University norm will be to only use and accept its own standard Terms and Conditions. The standard terms and conditions of contract can be located on [www.BruneleSourcing.com](http://www.BruneleSourcing.com) and the Intranet; these are updated in consultation with Legal Services and maintained by Procurement Services. Any variation to the standard Terms and Conditions will require express authorisation and advice from Procurement Services, who will seek advice on alternative clauses from Legal Services. Exceptions to be agreed with Procurement Services would normally be Joint Contract Tribunal (JCT) terms and conditions and those associated with approved Frameworks.

### **3.8. Evaluation Criteria**

- 3.8.1. The standard evaluation criteria for any procurement is weighted 60:40 to Cost: Quality respectively. Any deviation from this ratio requires the Procurement Director's approval in conjunction with the Chief Finance Officer, by submitting a waiver request. This rule to obtain a waiver request will not apply to procurements where the total contract value is below £100,000 and the price criterion is increased.

### **3.9. Responsible Procurement**

- 3.9.1. For all contracts with a total contract value of £150,000 or above the University requires a minimum of 5% of the total weighting of the tender evaluation score to be allocated for Responsible Procurement. This will be derived from the Quality section of the evaluation and will include social, economic and environmental characteristics (example: Quality has 40% overall weighting Social Value will be 5% of that weighting allowing 35% for other quality evaluation criteria).
- 3.9.2. All procurements conducted by the University and by those contracted by the University to act on their behalf will do so following the Government Buying Standards 'Mandatory' criteria, for further information contact the relevant Sourcing Manager.
- 3.9.3. All appropriate University Policies and Strategies are to be considered and included in tenders either within the Scope or Evaluation of tenders.

### 3.10. External Frameworks (including Dynamic Purchasing Systems)

3.10.1. Prior to using an external framework (or DPS) for the first time, Procurement Services will undertake a due diligence assessment for using the framework. Any frameworks (or DPS) that are approved following a recommendation from the Procurement Assurance Group, must be added to the Framework Register which is maintained by Procurement Services. The Framework Register will be a publicly available document.

### 3.11. Access Agreements (including Dynamic Purchasing Systems)

3.11.1. Where use of a framework (or DPS) requires the University to sign an Access Agreement (or similar) with an external contracting authority, the agreement must be reviewed by Procurement Services and authorised by the Procurement Director.

3.11.2. Mini competitions or call-offs, from frameworks (or DPS), over £30,000 should be administered through Procurement Services and conducted using [www.BruneleSourcing.com](http://www.BruneleSourcing.com).

### 3.12. Procurement Strategy Thresholds and Approval

3.12.1. The Procurement Strategy thresholds determine the approach to be applied to all procurement activity and set the type and levels of approvals before engaging the market via a tender process. Where procurements are considered to be high risk, the appropriate Sourcing Manager must be consulted. A Procurement Strategy may include a programme of works/projects, including the use of a Dynamic Purchasing System, over a defined period of time. Any deviation from an approved Procurement Strategy will require officers to seek approval again.
