

## Parental/Guardian media consent form

Brunel Centre for Advanced Solidification Technology (BCAST) is committed to recognising and ensuring the welfare and safety of all children and young people.

In accordance with Brunel University of London guidelines, photographs, videos or other images of children and young people will not be taken without the written consent of the parents or guardian.

### Legal requirement

In order to comply with Data Protection Law, a lawful basis is required before capturing images, which are classified as data, of a child or young person. Obtaining consent from either the parent, guardian or legally appointed representative of the child or young person provides that lawful basis. All staff working directly with the students during the work experience week will be DBS certified.

We would therefore like to ask for your consent for image capturing of the week at BCAST, either through photography or videoing, of your child in the following ways.

(Insert child's name) .....

### I consent to the image/video of my child being shared on:

- Use on social media platforms i.e. LinkedIn, Twitter, Instagram, TikTok ☐
- Brunel University of London Website ☐
- Publications ☐
- Email newsletter ☐
- I do not give consent for images to be used ☐

I understand that:

- Images will be held in accordance with the Data Protection legislation.
- That the images captured in the video recordings and/or photographs will be the copyright of Brunel University of London and any other intellectual property which arises in the recordings will also belong to Brunel University of London.
- I can ask Brunel University of London to stop using the images at any time, in which case they will not be used in future publications but may continue to appear in publications already printed and in circulation.

Brunel Centre for Advanced Solidification Technology  
Director: Professor Z Fan

I agree to my child's image being used as above and understand that once the image goes onto a social media platform it is out of the control of the organisation as to where that image further appears, who has access to it or what it's used for and by whom. I understand the risks associated with this including that a third party may identify my child without my consent or knowledge.
