In partnership with

# Diagnostics and the Developing World Conference London, UK 23<sup>rd</sup> – 25<sup>th</sup> January 2017

This **free** conference brings together clinicians, academics, epidemiologists, engineers and key stakeholders who have a keen interest in the area of diagnostics for the developing world. There will be a poster session, we are accepting poster abstracts until 16<sup>th</sup> December 2016, these can be submitted for review via our website. Keynote speakers confirmed include:

- Professor Yap Boum, Epicentre, Research arm of MSF, Cameroon
- Dr Sam Sia, Columbia University, USA
- Dr Dave Persing, Cepheid, USA
- Professor John Watson, Department of Health, UK
- Dr Andy Andy Ramsay, World Health Organisation
- Professor Rosanna Peeling, London School of Hygiene and Tropical Medicine
- Professor Rachel McKendry, UCL, London
- Dr Simone Borsci, NIHR DEC, Imperial College London
- Dr Abraham Jacobus 'Kobus' Herbst, Africa Centre for Population Health, South Africa
- Professor David Mabey, London School of Hygiene and Tropical Medicine
- Dr Tariq Sadiq, St. George's, University of London
- Professor Amit Dinda, All India Institute Of Medical Sciences, Delhi, India
- Professor Wamadeva Balachandran, Brunel University London
- Deusdedit Tusubira, Mbarara University of Science and Technology, Uganda

Further keynote speakers and the full programme will be unveiled in the coming weeks. A design workshop will be run by the Imperial NIHR DEC team on the evening of Day 2 which can be signed up for separately. We look forward to welcoming you to Brunel University London.
